“ Well, mama P I guess you were really ready this time. I’m so grateful to have had you for a mother in law. I always felt like we had a special bond that was unspoken, I think it was that (912) connection but either way I will always love and remember you. I’m so thankful to have met your daughter and be apart of your family and I just want to say thank you for all the love and support you shared for me over the last 22 years. Rest easy mama P.

“ Mom,

*Mom there is not enough words to type to communicate the love I have for you. Thank you for everything you have done for me and the opportunities you have afforded me.*

*My mom left us peacefully on June 24, 2024 surrounded by love and warmth.*

*Our mom was dedicated to taking care of her family by all means necessary. Her memory will live on in the countless lives she touched and the love she generously shared. Though we grieve, we also celebrate the beautiful life Patricia lived and the legacy she leaves behind.*

*In these difficult times, let us lean on each other for support and cherish the precious memories we hold dear. May we find comfort in knowing that my mom's spirit will always be with us.*

*With Love,*

*Kimberly*

“ Such a sweetie, so thankful for the memories of you with the last one being the greatest. Something told me not to let anything get in the way of missing your celebration and I didn't. You told me that day how proud of your family you were and how happy you were with your celebration and I knew you meant every word of that. What a way to say “I LIVED!!” Beautiful and successful children and grandchildren who all came together for family and to shower their mom on her special day. It breaks my heart to know you left this place but we all have to find peace in knowing you no longer suffer in pain nor fear of what's to happen next. Queen take your rest in eternal peace. You've done a job well done on this side and I appreciate you for accepting my son as I as family to experience a few of those memories with you. We love you all Tiff & Kim, I can't imagine the pain...but I'm always here for you all and the kids. 🥺 My deepest condolences to all of Ms. Pay love ones near and far.
